John Handel, Esq.—A Rig Meeting at the Capitol.

The friends of Clarksburg as the permanent seat of government for our young
and growing State last evening made a
noble-effort to drive away the apathy existing in this section over the Capital
question. They have been particularly
unfortunate herstofore, the weather
being unpropitious each time they
undertook to hold a meeting in the city.
Owing to the intense excitement prevailing over the railroad strikes, it was difficult, if not impossible, to create an interest in the question of locating the Capital,
the people generally not concerning theirselves over the matter, believing that it
mattered little to them where it went so
long as they knew Wheeling had no
show for her white alley. However,
several enterprising Clarksburgers who

but Kramer's excellent band paraded the atrepts in the atternoon, and again in the evening played several popular airs in front of the Capitol, attracting a crowd numbering from 1,600 to 2,000 persons.

The meeting was called to order by Mr. August Rolf, who nominated Michael Relily, Esq., as chairman. Mr. Relily being called upon to preside, took a seat immediately in front of the prominent gentlemen who had assembled upon the steps at the east entrance to the building, from which the speaking took place.

And as to mileage, he said that when the Legislature met in Charleston the Eagislature met in Charleston the Edistature of the State \$2.300 more than when the Capital was located in Wheeling. Many of the Bostons played in Indianapolis yesterday.

Our Eoys and the Hubbard Board Pilers had a game on the Island yester-but the State \$2.300 more than when the Capital was located in Wheeling. Many of the members of the Legislature from the Third district last winter went around by way of Washington City, which was the shortest way. Some of them, who don't live 150 miles in a direct line from Wheeling were paid \$1,000 for mileage.

The speaker then exposed the widely circulated theory that if the capital goes to Charleston the State would have the free use of a capitol building for five years. The same tender, he said, had been made in 1869, when the capital was removed from Wheeling to Charleston, but the State had to pay \$30,003 for the five years it was located there—more than one-half itse actual cost. The same trick was being tried again, and it remineded him of the old couplet about the spider and the fly, Moreover, the Charleston Capital building is mortgaged, and a clear title could not be given to it.
